

2020 Term 1 Year 10 Speed+ Program

Experience the Endless Potential...

Students experience key areas of the Year 11 syllabus

Prepare students for immediate successes in Year 11

Encourage all students to enjoy learning and be self-motivated, reflective students

Extend talents and capabilities geared towards the HSC

Develop confidence to make a successful transition to the senior years of high school

Advanced English and Writing Curriculum

The course will include challenging extension work which focuses on developing advanced analytic, composing and research skills which form the basis of the Stage 5 English curriculum.

Students will develop skills and understandings of some of the key syllabus areas from the Stage 6 program:

- In-depth knowledge of the requirements for Paper 1, HSC, The Area of Study
- Advanced analytic skills applied to a wide range of texts
- Development of complex ideas and conceptual approaches to the Area of Study
- Exam preparation and practice for Paper 1 Section 2

Advanced Mathematics Curriculum

Students will develop skills and understandings of some of the key syllabus areas from the year 11 Mathematics extension program. Key topics to be addressed:

- Trigonometry
- Linear functions
- Introduction to Calculus
